## INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1942 edition of the Wilmington City Directory, which also includes Audubon, Brookwood, Colonial Village, Country Club Pines, Edgewood, Forest Hills, Garden City, Glen Arden, Highland Park, Idlewild, Oleander, Summer Hills, Sunset Park, Winter Park and Woodcrest. A new feature, the designation of homes and places of business having telephones, marks this edition.

Confidence in the growth of Wilmington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the community.

#### Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 754, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Wilmington and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 72, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilmington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 829 to 925, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers

meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 929 to 1056. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes. A new feature is the designation of homes and places of business having telephones.

#### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington and vicinity.

#### The Wilmington Directory Library

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

#### Statistical Review

Form of Government—City manager-council.

Population—1940 U. S. Census report, 33,407; 1941 estimate of Wilmington city officials, approximately 50,000 (increase result of defense projects).

Area-4.5 square miles.

Altitude—30 feet above sea level.

Climate—Mean annual temperature, 63 degrees F.; average annual rainfall, 53 inches.

Parks—5, with total of 225 acres, valued at \$425,000.

Assessed Valuation—\$36,992,408.

Bonded Debt—\$2,815,500. Bonds are retired at rate of \$100,000 or more annually.

Financial Facts—1 national bank and 3 state banks and trust companies, with total deposits of \$35,239,424.61 (Sept. 30, 1941), and total resources of 39,598,745.59 (Sept. 30, 1941). Clearings for year ended Sept. 30, 1941, \$192,675,963.69.

Telephones in Service—7,640. Southern Bell Telephone Co. is installing additional quarters representing a total investment of \$925,000.

Churches—70, representing all denominations.

Building and Construction—Value of building permits for year ended Sept. 30, 1941 (private), \$745,223. Estimated number new housing units in city and suburbs, 2,500. This figure includes approximately 1,300 units for defense workers built at a cost of \$5,000,000 and not included in figure mentioned above. Also not included are 2 housing projects completed about 15 months ago at cost of approximately \$2,100,000, comprising about 600 housing units. There is continuous volume of private building being carried on to accommodate new residents. During present year, plant of North Carolina Shipbuilding Co. has been built for Government at cost of \$5,000,000. This plant will build 37 steel cargo ships valued at \$60,000,000 and will employ 7,000 workers, with payroll estimated at from \$600,000 to \$1,000,000 per month. Wilmington is also headquarters for the Ethyl-Dow Chemical Co., which built in 1933 a \$3,000,000 plant to extract bromine from ocean water. In the past 4 years, additions to this mammoth plant have been constructed at further cost of approximately \$3,500,000.

Industry—Principal industries: Manufacturing, retail and wholesale trade and shipping. 110 establishments, employing normally 14,000 men and 5,700 women, paying wages of about \$14,000,000 annually, and having products valued at about \$50,000,000 annually. Principal manufactured products: Steel ships, fertilizers, bromine, creosoted products, lumber, sugar, tobacco products, petroleum products, concrete products, cotton goods and molasses.

Trade Area—Retail area extends 75 miles inland, and contains population of approximately 250,000; wholesale area extends 150 miles inland, and contains population of 350,000.

Newspapers—2 dailies (morning and evening); also 1 weekly for white people and 1 weekly for colored people.

Hotels—4, with total of 550 rooms.

Railroads—3: Atlantic Coast Line; Seaboard Air Line; Wilmington, Brunswick & Southern.

Amusements—7 theatres, with total seating capacity of

7,100 persons. 2 golf courses. Hospitals—5, with total of 560 beds.

Education—10 public schools, including 2 high. Number of pupils in public schools, 10,314; in private, 450. Number of teachers in public schools, 298. Value of school property, public and private, approximately \$3,000,000.

City Statistics—Total street mileage, 80, with about 60 miles paved. Miles of gas mains, 75; sewers, 65. Daily aver-

Wilmington's port volume is steadily increasing, as is evidenced by this steamer laden with tobacco and bound for a foreign port.

age pumpage of water works, 3,500,000 gallons; value of plant, \$1,250,000. Fire department has 66 men, with 4 stations and 8 pieces of motor equipment. Police department has 58 men, with 1 station, 10 pieces of motor equipment and two-way radio reception. Tidewater Power Co. furnishes up-to-date bus service throughout the city.

#### General Review

Wilmington is strategically situated on the Cape Fear River, blessed by nature with a variety of resources and kept up-to-date by the hand of man. It possesses trunk-line rail, highway and deep-water transportation, which give it low freight rates and permit quick freight movements in great volume.

In 1941 the city of Wilmington has been transformed from a staid city into one of the busiest and most important Governmental defense points in the entire Southern States. This change has been accompanied by an awakened civic spirit and an impetus to general business circles which has brought prosperity in overflowing measure to practically all retail channels.

Camp Davis, at Holly Ridge, 29 miles northeast of Wilmington, was established by the U.S. Government in the spring of 1941, with formal opening in May. In the brief period which has elapsed, the Government has assembled 20,000 trainees and approximately 1,100 officers. Wilmington is the nearest city of any size to Camp Davis, which fact practically makes the Government reservation a local enterprise.

This "Ecce Homo," a painting of Christ, was taken from a pirate ship which attacked the town of Brunswick, near the present site of Wilmington, in 1747. About 1750 the painting was given to St. James Episcopal Church in Wilmington, by the Assembly. The work is estimated to be from 500 to 800 years old, and attracts the attention of all visitors.

A great percentage of the commissioned and non-commissioned officers make their homes in Wilmington or in the immediate suburbs. They have constituted not only a very desirable addition to the community life of th city, but, as well, a decidedly advantageous factor in increased business volume for the various mercantile establishments. There have been such favorable reactions as regards health and other conditions at Camp Davis, that well-authenticated

reports are already current, of contemplated enlargement of the camp, with the addition of from six to ten thousand men.

An equally important and major factor in the present satisfactory expansion of Wilmington, coming at the same time as the establishment of Camp Davis, was the announcement early in 1941 of the establishment here of the North Carolina Shipbuilding Co. This corporation is an adjunct of the Newport News Shipbuilding Co., of Newport News, Va.,

Wilmington is the center of a rich agricultural territory, especially as regards early truck crops. A view of a typical lettuce farm is shown above.

and bids fair to be the natural outlet for that corporation in the building of commercial craft. Within six months from the announcement by the Government that a contract to build 37 steel ships of 10,000 tons capacity each, had been awarded at a total estimated cost of \$60,000,000, from a forest wilderness immediately south of Wilmington, there emerged a developed shipbuilding plant with capacity for building nine ships at one time. The cost of installation of the ship-

Passenger liner leaving the port of Wilmington for a cruise to Bermuda. In the background is the U. S. Customs House and the Coast Guard Cutter Modoc.

yard was in excess of \$5,000,000. Approximately 7,000 employees will be given work and it is estimated that the payroll will range from \$600,000 to \$1,000,000 each month. Award of the contract carried with it the requirement that the entire number of 37 ships shall be completed within two years from date of installation of the plant. There is confident expectation that future additional contracts will keep the plant of the North Carolina Shipbuilding Co. busy for

many years to come and that this enterprise will continue to be a back-log for Wilmington's continued prosperity long after the present emergency has ceased.

The two enterprises outlined above, as a matter of course, have brought with them many municipal changes. City of-

The municipal building of the City of Wilmington is more than eighty years "young," and attracts the attention of all visitors because of its graceful design and attractive proportions.

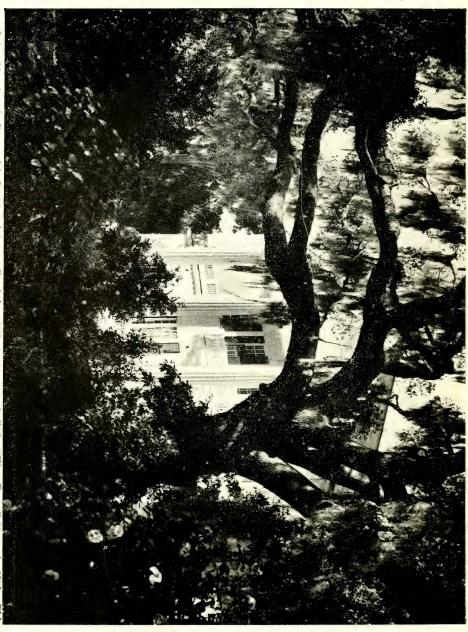

ficials estimate that the municipal population has increased from the figure of 33,407 shown by the official Census of 1940, to approximately fifty to sixty thousand in the fall of 1941, with additional thousands expected early in 1942 when peak production is reached at the plant of the shipbuilding

The Babies' Hospital at Wrightsville Sound, eight miles east of Wilmington, is a unique and splendidly-managed institution. Here every summer are brought several hundred sick and ailing infants from every section of the South and are soon restored to healthful vigor.

company. Likewise, the county officials estimate that the population of the county has increased from the 1940 Census figure of 47,935 to approximately 80,000 in the latter part of 1941. To house all these new residents, it is estimated that 1941 has seen the addition of 3,000 or more new dwelling

units. Of these, 1,300 or more have been provided by the U.S. Government at a cost of 5,000,000. The additional houses have been provided by private agencies, and there is a continuing volume of building.

In excess of a million dollars is being invested in an extension of the school system, it being estimated that the scholastic term of 1941-42 will add approximately  $5{,}000$  students to the rolls. A similar sum is contemplated for

splendid estate has been developed into one of the most magnificent camellia and azalea gardens in the South, and tracts thousands of visitors each season, Orton Mansion, in Brunswick County, sixteen miles below Wilmington, was built by "King Roger" Moore in 1725. extension and enlargement of hospital facilities to care for demands brought about by the addition to the population of the city and county, and approximately \$1,500,000 is being applied to reconstruction and enlargement of the municipal water works plant, which work, when completed, will double the pumpage capacity from approximately 3,500,000 gallons daily to 10,000,000 gallons daily.

Wilmigton is important as a port, as a resort center, and as an industrial city, while it is the pivotal point for a rich and large agricultural area, and is the trading center for fully 250,000 people, the city being their nearest, as well as largest, market.

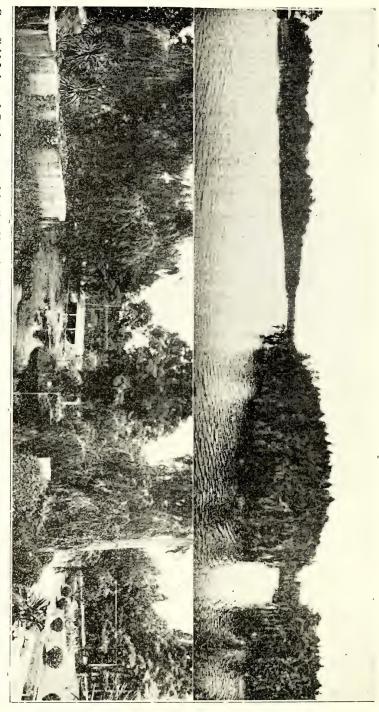

As a port, it possesses a fresh-water harbor 28 miles from the bar. Ice is an unknown quantity in the river, which has a deep channel, through which go big ocean steamers bound for Europe, Latin America and other foreign shores.

New Hanover County, of which Wilmington is the county seat, has scores of miles of shaded paved highways. A typical road scene near Wilmington is shown above.

The Federal Government recently completed the deepening of the channel in the river to thirty feet at mean low water (with approval of increase to a 32-foot depth and increase of width from 300 to 400 feet), as well as the Intra-Coastal Canal from Beaufort to Wilmington, and from Wilmington to Miami, Fla., giving connections with Baltimore, Philadelphia, New York and Boston.

Wilmington's exportations and importations are large and ever-growing, which mark a successful port. As a cotton port, it handles a satisfactory volume. Its imports cover a large field in variety and come from practically every quarter of the globe. Wilmington ranks as the second largest fertilizer and petroleum products port on the Atlantic Seaboard. Its volume of petroleum products is such that practically 75% of the state's consumption passes through the port. Wilmington also has a tremendous volume of molasses importation, which serves a half dozen states, as well as an enormous amount of lumber handled in both coast-wise

Greenfield Lake and Gardens, owned by the City of Wilmington, have a five-mile scenic drive around the lake. These properties represent one of the finest municipal parks in the South.

and foreign trade. Recent increase of port volume has been evidenced in large tobacco exports and growing imports of sugar, with vast shipments of bromine and distribution of petroleum products.

Regardless of conditions, the past few years have witnessed big building operations. Among recent enterprises located here are several large fertilizer factories, North Carolina Shipbuilding Co., Ethyl-Dow Chemical Co., Gulf States Creosoting Co., Taylor-Colquitt Co., manufacturing creosoted products, Atlantic Refining Co., American Molasses Co., Southland Mfg. Co., Chilian Nitrates Co., Barrett Co., Nehi Bottling Co., Pepsi-Cola Bottling Co., Standard Oil Co., Texas Co., Atlantic Refining Co., Gulf Refining Co., Cities Service Co., Pure Oil Co., National Oil Co., Shell Oil Co., Sinclair Oil Co., Republic Oil Co., and North State Creosoting Co., thus supplementing the city's already large number of such industries.

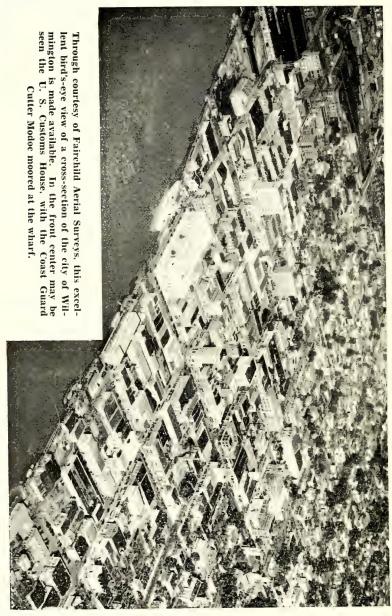

For disciples of old Izaak Walton, the salt and fresh waters in the Wilmington area prove sources of recreation and enjoyment, combined with catches of fish of varied species.

Wilmington is the natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Wilmington is North Carolina's major seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory, the bountiful natural resources of which have hardly been touched.

From the Middle West the Panama Canal possibly is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington are not subject to the dangers of Cape Hatteras.

Wilmington is the center of one of the greatest vegetable-producing districts in the U.S. Comparatively few years ago no strawberries were raised except for domestic use; now Wilmington is the center of one of the largest strawberry-growing districts in the world. It is one of the

largest lettuce-producing districts also, and a very large vegetable and peanut market.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick & Southern Railway; the North Carolina Line; Norfolk, Baltimore & Carolina Line; Railway Express Agency, Inc., and foreign services. The two boat lines mentioned, each operate two services each week over the Intra-Coastal Canal between Wilmington, Norfolk and Baltimore.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 53 inches; average annual clear days, 132 (New York, rainfall, 44 inches; clear days, 118; New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities made this city and section a haven for homeseekers.

The Wilmington district is one of the greatest trucking regions in the U.S., and the yield for these early crops is

valued at nearly \$18,000,000 annually.

Wilmington is the nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by fifteen miles, and Savannah, by thirty miles.

This early Colonial home still stands in Wilmington. It was built in the 1750's, and when Wilmington was captured by the British in 1781, served as headquarters for Lord Charles Cornwall, commander of the invading forces. This property is now a shrine which attracts much attention.

The city has immense terminals that can load sixteen ocean-going ships at one time, providing them with over

600,000 square feet of warehouse space.

In the World War, Wilmington had two immense shipyards. It had the honor of possessing the only Governmentowned steel shipyard in the South, and first Governmentowned concrete yard in the country. These yards have been converted into important industrial centers. The activities of the present North Carolina Shipbuilding Co. will represent a greater volume output and payroll than the combined figures of the two companies which were active during World War No. 1.

The commerce on the Cape Fear River at and below Wilmington last year amounted to 2,785,419 tons. This shows a satisfactory and continuing increase in volume, and indicates the growing importance of the Port of Wilmington.

South of Hatteras, thus assuring safety to vessels from Latin America and other countries to the south of the U.S.,

this port occupies a strategic position of advantage to those countries.

Cape Fear River never has ice, which permits year-around navigation and the climate is never so cold that it makes outdoor work a hardship or discomfort.

Wilmigton has many fertilizer factories, petroleum products terminals, lumber plants, wood creosoting plants, and a number of fish-packing plants, with large payrolls. It has the handsomest custom house in the South, costing more than \$700,000. This city is the home station of the Coast Guard Cutter Modoc.

Wilmington has become a new and important inland waterway canal terminal since the completion, in the spring of 1932, of the extension from Beaufort to the Cape Fear River. This link provides accommodations for heavy traffic over a protected inland channel twelve feet deep and ninety feet wide, connecting up with points as far north as New York and Boston, and Miami, southward.

Two very convincing reasons why Wilmington's splendid ocean resorts, Wrightsville, Carolina, Wilmington and Fort Fisher Beaches, attract thousands of visitors every season.

Wilmington has two immense cottton compresses and two marine railways. The steel shippard operated during the first World War by the George A. Fuller Co. has been converted into an industrial center. The concrete shippard property is owned by the City and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for State-owned terminals and warehouses, whenever such are necessary. Wilmigton now has one of the finest and most efficiently operated systems of private terminals at any Southern port, and the city's principal stevedoring corporation holds the record for all South Atlantic ports for quick dispatch of cargo.

With both water and rail transportation, thus afording quick hauls and low freight rates, and near the scenes of raw materials, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and the Seaboard Air Line—place the city near the great coal fields and the iron-producing zones.

Wilmington has cotton and garment mills, wood and metal works, concrete concerns, creosoting factories, candy factories, machine shops, big fertilizer factories, sawmills, oil stations, etc. A fine cold storage plant is located here.

This is a leading banking center, local banks having total deposits of \$35,239,424.61.

Jobbing business runs into many million dollars in value annually, and retail merchants do a wide business, as the city is the trading Mecca for a section containing 250,000 population.

City of big weekly payrolls. Annual payrolls normally about \$14,000,000, distributed among thousands of employees, exclusive of the shipyard payroll of from \$600,000 to \$1,000,-000 monthly.

Headquarters of Atlantic Coast Line system, employing locally about 1,750 men and women. Monthly payroll of Coast Line nearly \$300,000.

Wonderful year-around climate, and a health record praised by the U.S. Government.

The Wilmington section has crop-growing days to the number of 250, which is the equal of northern Mexico, though with the advantage of an ample and equable rainfall.

Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city is also an important point on the Ocean Highway extending from Portland, Maine, to Miami, Fla., the Calhoun Highway from Athens, Ga., and the Dixie Highway from Memphis, Tenn., to the ocean at Wilmington, and U. S. Routes 17, 74, 76, 117 and 421.

Wilmington is a city of fine streets, fine parks, attractive homes, beautiful churches and modern schools, in a county netted by good roads, the superior not to be found anywhere. It is a place of up-to-date amusements, with some of the best beach resorts on the South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour bus service and causeway to Harbor Island just west of the beach. Carolina, Wilmington and Fort Fisher Beaches, south of the city, are mainland resorts with many delightful attractions. Wilmington's four fine beaches are among the only mainland resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The four beaches attract approximately 500,000 visitors every summer.

The Greater Wilmington Chamber of Commerce is alive to the city's great advantages and is always eager to answer all questions and to extend hearty co-operation. Write the Chamber of Commerce for any information desired.

# "When In Doubt, Play Trumps"

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

# CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

# When You Want to Know:

- -where a person lives.
- —what his occupation is.
- —who lives at a certain number on a street.
- —where a street is located.
- —the correct spelling of a name.
- —the officers of a corporation.
- —the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- —you can quickly find the answer in the City Directory.

#### It Pays to be Prominently Displayed —

To let people know Who you are, Where you are and What you have to sell. The City Directory keeps your name before the public 365 days in the year, and it pays to be prominently displayed in any book so constantly used.

Is Your Name Prominently Displayed?

# CTall

#### ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted—"User Circulation."

To be exact by actual survey in twenty-four average American cities by actual count each city Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and onehalf daily consultations for each book for three hundred and five days, therefore—

 $1000 \times 3\frac{1}{2} \times 305 =$ 

1,067,500

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact advertising known

#### HILL'S WILMINGTON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1942

Copyright, 1942, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The A preceding names denotes householders and places of business having telephones.

\* \* \* Denote no houses between intersections where appearing.

(c) denotes colored.
